

PHILIPP GALLASCHIK

Medical Doctor & Software Engineer

@ philipp.gallaschik@i-med.ac.at
📞 Readysoon

✉ Kaiser-Josef-Straße 1, 6020 Innsbruck
📧 philipp-gallaschik-a7533b227

📍 Innsbruck, Austria

PROFESSIONAL EXPERIENCE

Software Engineering Studies

CODE University of Applied Sciences

📅 2021 – 2025 📍 Berlin

- Developed full-stack healthcare applications with focus on medical data analysis
- Created Scanlytics, a medical imaging analysis platform with machine learning capabilities
- Collaborated in agile teams using project-based learning approaches

Werksstudent

Diagnostikum Berlin

📅 2023 – 2024 📍 Berlin

- Employment as MTA and MFA in various radiological practices in Berlin
- Applied software engineering knowledge to improve clinical workflows

Practical Year

Helios Klinikum Berlin Buch

📅 2021 – 2022 📍 Berlin

- Rotation through Internal Medicine, Surgery, Radiology, Oncology, and Psychiatry

Clinical Rotations & Famulaturen

Various Hospitals

📅 2014 – 2020 📍 Germany & Switzerland

- 2020 – 6th Famulatur: Psychiatric Covid Admission Ward, BKH Schwaben
- 2020 – 5th Famulatur: Voluntary Covid ICU Support, UK Augsburg
- 2020 – 4th Famulatur: General Medicine, Gemeinschaftspraxis Dr. Sewczik (Gessertshausen)
- 2019 – 3rd Famulatur: Anesthesia, UK Augsburg
- 2019 – 2nd Famulatur: Surgery, Kantonsspital Thun (Prof. Dr. G. R. Linke)
- 2017 – 1st Famulatur: Oncology (Colorectal Cancer Center), UK Augsburg
- 2015 – 2017 – Nursing Internships (1–3): Diako Augsburg, Hessing-Park Clinic Gersthofen, UK Augsburg
- 2014 – Occupational Medicine Internship: Dr. Lippert, Neusäß

PROJECTS

Scanlytics

Healthcare Data Analysis Platform

📅 2022 – 2024

- Developed a platform that automates medical reporting, a crucial and time-consuming part in healthcare

LIFE PHILOSOPHY

“The future of medicine lies at the intersection of human expertise and automation. By leveraging technology to handle routine tasks, we free physicians to focus on what truly matters—the human connection in healthcare.”

CORE VALUES

Innovation-Driven

Combining medical expertise with software engineering to create healthcare solutions

Collaborative Mindset

Thriving in interdisciplinary teams bridging healthcare and technology

Entrepreneurial Thinking

Identifying healthcare challenges and developing technical solutions

Purpose-Oriented

Committed to improving patient care through technology

PROGRAMMING

Python
Docker
Rust
JavaScript

FRAMEWORKS/SKILLS

REST APIs Git SurrealDB PostgreSQL
Sveltekit Cyber Security CI/CD
Test-Driven Development Agile/Scrum

EDUCATION

Software Engineering (B.Sc.)

CODE University of Applied Sciences

📅 2021 – 2025 📍 Berlin

- Project-based learning with focus on full-stack development
- Specialization in healthcare applications and data analysis

- Created software that dynamically generates structured radiological reports based on medical images and renders them into ready doctor letters
- Implemented RESTful APIs for secure patient data management
- Mapped out a roadmap for expansion to MRI/CT technology and eventually report generation for internal medicine and other medical specialties

Setbox

Learning Automation Tool for Medical Students

📅 2022

- Developed an automation tool to enhance learning efficiency for medical students
- Implemented spaced repetition algorithms to optimize knowledge retention
- Created a user-friendly interface to streamline the learning process

PERSONAL DETAILS

Date of Birth

October 17, 1995

Parents

- Dipl. med Birgit Gallaschik (General Medicine)
- Dr. Andreas Jablonski (Anesthesia)

Medical Studies

Wroclaw Medical University

📅 2014 – 2021

- Completed 3rd State Examination with 71,07%

Allgemeine Hochschulreife (Abitur)

Landheim Schondorf am Ammersee
Ernst-Reisinger Gymnasium

📅 2011 – 2014

Gymnasium

Justus-von-Liebig Gymnasium Neusäß

📅 2006 – 2011
